

Review Of Alice Miranda At School!

I recommend reading this series, it is so astonishing! It was first published in 2010 and Jacqueline Harvey wrote this series and she is still going.

In this particular book there is one main character in the book who is named Alice Miranda. I like Alice Miranda because she is so very kind, she also helps everyone and anyone all the time. She's very smart and she's well mannered.

In the book there is one main setting in the book which is her school. The school's name is The School For Proper Young Ladies. In the school there are a lot of different rooms, which makes it gigantic.

I really think you should read it because it is marvellous. I think grade 4-6 should read this. I rate it 5 stars.
