Dear Grade Six Parents,

Secondary School Transition Support

We understand that preparing your child for secondary school is a major transition, not just for the students themselves but for the whole family. We also know that 2020 has been a very challenging year for all families, with the Covid-19 pandemic continuing to have a significant impact on all of our lives. With this in mind, the Karingal Heights Anglicare Family Wellbeing Hub team would like to offer our support to ensure that all Karingal Heights Primary School grade six families have a positive transition to secondary school in 2021 and that the students start their secondary school journey with the resources they need to succeed.

Starting secondary school can be costly for families- purchasing new uniforms and shoes, as well as text books, stationery and other learning materials- it can all start to add up quite quickly. Please get in touch with us directly if you require support to purchase essential school supplies and we can plan the way forward together.

Additionally, we know that the secondary school transition can be an emotional time for the students and for the families- it's a major life milestone to navigate. If you would like to chat about any transition related questions, concerns or worries, we are here to assist. Although we are unable to meet with parents on the school grounds due to the current restrictions, we are available via phone and can also arrange an online or in-person catch up (in the community ie. park/café) as needed.

Although these past few months have been difficult and the coming months may also bring challenges, we are here to assist you all to have a smooth transition to secondary school in 2021. Should you require any support from Anglicare, please do not hesitate to contact either myself (0458 500 867) or Naomi (0438 280 375).

Kind regards,

Natalie Everitt

Parent and School Engagement Worker
