

Week 4 Japanese: Uchiwa Fan Making

What you will need:

- Scissors
- PVA glue or any glue strong enough to hold the sticks to the fan
- 1 half of a paper plate (1 paper plate cut in half)
- Crayons, pencils, textas (whatever you would like to decorate your paper plates)
- 3 paddle pop sticks

How to make it:

1. Cut paper plate in half.

2. Decorate both sides of the fan. (Some ideas below)

3. Glue one end of each paddle pop stick to both ends of the plate on angle, so that the other ends of the paddle pop sticks meet and can be glued together.

And that's your finished!
